

KIBL Litepaper V0

KennelKlub Arcade — Provably Fair Gaming on Nexa

KennelKlub is building the first provably fair blockchain arcade on Nexa. Starting with PixelPup Poker, the arcade expands season by season with new games, achievements, and rewards. Every hand is verifiable through commit–reveal fairness, every wager strengthens the deflationary \$KIBL economy, and every pup NFT ties players into a playful identity layer. Unlike opaque casinos or inflationary play-to-earn schemes, KennelKlub is fairness-first, community-shaped, and designed for both Web3 natives and newcomers.

Stay Shiny — PixelPup Approved

The Problem

- Opaque casinos hide the house edge.
- Web3 games are exploit-prone and unsustainable.
- Crypto newcomers face scam fears, wallet anxiety, and jargon overload.

Our Value Proposition

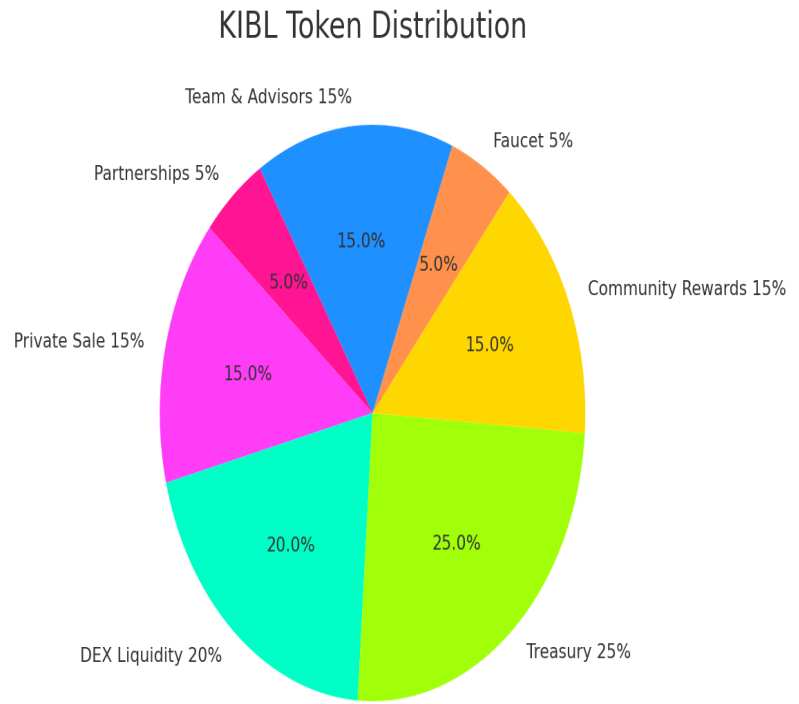

For Web3 gamers and crypto-curious newcomers, who want skill-based games they can trust, KennelKlub is a fair-play blockchain arcade on Nexa that delivers provably fair outcomes, seasonal competitions, and a deflationary token economy wrapped in the playful PixelPup identity. Unlike house-edge casinos or unsustainable P2E projects, it is fairness-first, community-shaped, and approachable for anyone.

Community & Culture

KIBL launched with grassroots energy — a faucet seeded over 630 wallets, making it one of the most widely distributed tokens on Nexa. PixelPups bring a playful, meme-friendly identity to the ecosystem, lowering barriers for newcomers while reinforcing cultural identity for Web3 natives. Seasonal arcade competitions and NFT rewards will keep the community engaged and growing.

Tokenomics

KIBL launched with a community-first faucet distribution (~5%), seeding over 630 wallets for fair grassroots ownership. Going forward, allocations are structured with cliffs and vesting to ensure sustainability and investor confidence.

Category	%	Tokens	Vesting	Notes
Private Sale	15%	149.85M	6m cliff → linear	Supporter round
DEX Liquidity	20%	199.8M	Immediate, tranche-locked	KIBL/NUSD liquidity provisioning
Treasury	25%	249.75M	12m cliff → 20% yearly	Dev, marketing, audits, grants
Community Rewards	15%	149.85M	3m cliff → 4+ yrs linear	Leaderboards & gameplay rewards
Faucet (distributed)	5%	49.95M	Circulating	Fair launch, 630+ wallets seeded
Team & Advisors	15%	149.85M	6m cliff → 3y linear	Retention & incentives
Partnerships & Growth	5%	49.95M	Flexible	Strategic collabs & ecosystem growth

Roadmap — Seasonal Arcade Progression

Season 0 (2025)

- Poker & Blackjack polished release
- Form Wyoming LLC legal entity
- Wallet integration

Season 1 (2026)

- Dice & Roulette releases
- Private Sale with hard cap & per-wallet max
- Community leaderboards & rewards

Season 2 (2026)

- Enable KIBL betting (crypto-only, Nexa→KIBL conversions)
- NFT reward system
- Treasury growth through sustainable mechanics

Season 3 (2026–27)

- Multiplayer Poker beta
- Slots release
- Partnerships & ecosystem expansion

Season 4 (2027)

- DAO treasury governance transition
- KennelKlub RPG prototype
- Full Arcade launch

Compliance & Risk Management

KennelKlub is structured through a Wyoming LLC, with offshore licensing paths (Palau, Costa Rica) under exploration. Licensing upgrades (Curaçao, Isle of Man, Malta) will be pursued once traction supports. Transparency-first: burns, faucet distribution, and treasury locks are public. Risks include regulation, adoption, and development capacity — all mitigated with careful structuring and treasury management.

Long-Term Vision

KennelKlub aims to become the Web3 arcade ecosystem of Nexa. A hub of provably fair games, DAO-governed treasury, seasonal rewards, and NFT integrations. \$KIBL as the arcade currency of Nexa: deflationary, community-powered, and fun.

Closing

KIBL is the first fair-play blockchain casino token on Nexa. With capped supply, grassroots distribution, transparent mechanics, and a sustainable treasury, KennelKlub is positioned for long-term growth. From Alpha Tester NFTs to multiplayer poker and RPG battles, KennelKlub is more than a game — it's a movement to bring fairness and fun back to blockchain gaming.
